# H6 Core 12 - audition book

15 October 2026

PROVISIONAL - NOT MUSICALLY APPROVED

Twelve computed triad pairs, in numerical order. None is admitted.

Each music page is an original guitar and bass example: close triads, inversions, a spread voicing, an exchange, contrasting dyads, two bass pedals, and a nearest-collection comparison in the same rhythm.

The difference printed for each pair is a pitch-class difference. No audible difference is claimed.

Section D on the music page, and the lines on each identity page, are blank on purpose.

# 1. C minor / Db minor

PROVISIONAL  -  NOT MUSICALLY APPROVED

1. C minor / Db minor. Status: PROVISIONAL  -  NOT MUSICALLY APPROVED. Pitch classes: C Db Eb E G Ab. Forte 6-19. Normal form 0 1 3 4 7 8. minor triad on C beside a minor triad on Db. The second root sits a minor 2nd above the first. The two triads share no pitch class. This is a colour pairing, not a cadence. Tonality Vault / BHL: notation-checked 2026-10-15: Vol 15 pp. 523-524 names chaos pitches B C# E F# G# and triads E major and C# minor. C minor / Db minor is not printed. Provenance stays computed. No BHL world is renamed by this candidate. Provenance: computed. Minimum voice-leading 3 semitones. Other disjoint tertian splits of this union: 2. Open-string count is highest at T1 (3 open). The audition stays on the named roots.

Nearest existing collection: hex_augmented_t0 (scalar, Forte 6-20), shared pitch classes 5. Tied with 7-sharp9-sharp5. Nearest spelling: C Eb E G Ab B. Comparison material uses its collection slice C Eb E and its collection slice G Ab B. Only in this candidate: Db. Only in the nearest collection: B. Shared: C Eb E G Ab. The difference is this pitch-class mismatch. No audible difference is claimed before human review.

No audible difference is claimed before human review.

Distinct: YES / NO / UNDECIDED
Useful: YES / NO / UNDECIDED
Playable: YES / NO / UNDECIDED

# 1. C minor / Db minor provisional

# 2. C minor / B diminished

PROVISIONAL  -  NOT MUSICALLY APPROVED

2. C minor / B diminished. Status: PROVISIONAL  -  NOT MUSICALLY APPROVED. Pitch classes: C D Eb F G B. Forte 6-24. Normal form 0 1 3 4 6 8. minor triad on C beside a diminished triad on B. The second root sits a minor 2nd below the first. The two triads share no pitch class. This is a colour pairing, not a cadence. Tonality Vault / BHL: No Vault pair is claimed. No BHL world is renamed by this candidate. Provenance: computed. Minimum voice-leading 4 semitones. Other disjoint tertian splits of this union: 1. Open-string count is highest at T2 (4 open). The audition stays on the named roots.

Nearest existing collection: hex_minor_primary (scalar, Forte 6-32), shared pitch classes 5. Tied with minmaj9, min11. Nearest spelling: C D Eb F G Bb. Comparison material uses its collection slice C D Eb and its collection slice F G Bb. Only in this candidate: B. Only in the nearest collection: Bb. Shared: C D Eb F G. The difference is this pitch-class mismatch. No audible difference is claimed before human review.

# 2. C minor / B diminished provisional

# 3. C major / B diminished

PROVISIONAL  -  NOT MUSICALLY APPROVED

3. C major / B diminished. Status: PROVISIONAL  -  NOT MUSICALLY APPROVED. Pitch classes: C D E F G B. Forte 6-25. Normal form 0 1 3 5 6 8. major triad on C beside a diminished triad on B. The second root sits a minor 2nd below the first. The two triads share no pitch class. This is a colour pairing, not a cadence. Tonality Vault / BHL: No Vault pair is claimed. No BHL world is renamed by this candidate. Provenance: computed. Minimum voice-leading 5 semitones. Other disjoint tertian splits of this union: 1. Open-string count is highest at T0 (4 open). The audition stays on the named roots.

Nearest existing collection: hex_major_omit_seventh (scalar, Forte 6-32), shared pitch classes 5. Tied with hex_major_omit_fourth, sus9, maj7, maj9. Nearest spelling: C D E F G A. Comparison material uses its lower C E G and its upper D F A. Only in this candidate: B. Only in the nearest collection: A. Shared: C D E F G. The difference is this pitch-class mismatch. No audible difference is claimed before human review.

# 3. C major / B diminished provisional

# 4. C major / Eb diminished

PROVISIONAL  -  NOT MUSICALLY APPROVED

4. C major / Eb diminished. Status: PROVISIONAL  -  NOT MUSICALLY APPROVED. Pitch classes: C Eb E Gb G A. Forte 6-27. Normal form 0 1 3 4 6 9. major triad on C beside a diminished triad on Eb. The second root sits a minor 3rd above the first. The two triads share no pitch class. This is a colour pairing, not a cadence. Tonality Vault / BHL: No Vault pair is claimed. World A is the existing major-second pair, a different object when this union is not that pair. Provenance: computed. Minimum voice-leading 5 semitones. Other disjoint tertian splits of this union: 1. Open-string count is highest at T7 (4 open). The audition stays on the named roots.

Nearest existing collection: hex_lydian_triad_pair (scalar, Forte 6-33), shared pitch classes 5. Tied with maj7-sharp11-sharp9, maj7-sharp11. Nearest spelling: C D E F# G A. Comparison material uses its lower C E G and its upper D F# A. Only in this candidate: Eb. Only in the nearest collection: D. Shared: C E Gb G A. The difference is this pitch-class mismatch. No audible difference is claimed before human review.

# 4. C major / Eb diminished provisional

# 5. C minor / Bb diminished

PROVISIONAL  -  NOT MUSICALLY APPROVED

5. C minor / Bb diminished. Status: PROVISIONAL  -  NOT MUSICALLY APPROVED. Pitch classes: C Db Eb E G Bb. Forte 6-27. Normal form 0 2 3 5 6 9. minor triad on C beside a diminished triad on Bb. The second root sits a major 2nd below the first. The two triads share no pitch class. This is a colour pairing, not a cadence. Tonality Vault / BHL: No Vault pair is claimed. No BHL world is renamed by this candidate. Provenance: computed. Minimum voice-leading 5 semitones. Other disjoint tertian splits of this union: 1. Open-string count is highest at T4 (4 open). The audition stays on the named roots.

Nearest existing collection: sus-b9 (wps-pair, Forte 6-33), shared pitch classes 5. Tied with 7-sharp9-sharp5, 13b9. Nearest spelling: Bb Db F C Eb G. Comparison material uses its resolution triad Bb Db F and its tension triad C Eb G. Only in this candidate: E. Only in the nearest collection: F. Shared: C Db Eb G Bb. The difference is this pitch-class mismatch. No audible difference is claimed before human review.

# 6. C major / Bb minor provisional

# 7. C minor / F# minor

PROVISIONAL  -  NOT MUSICALLY APPROVED

7. C minor / F# minor. Status: PROVISIONAL  -  NOT MUSICALLY APPROVED. Pitch classes: C Db Eb Gb G A. Forte 6-30. Normal form 0 1 3 6 7 9. minor triad on C beside a minor triad on F#. The second root sits a tritone above the first. The two triads share no pitch class. This is a colour pairing, not a cadence. Tonality Vault / BHL: No Vault pair is claimed. World F's tritone major pair is an existing 6-30 construction. This candidate is not that pair. Provenance: computed. Minimum voice-leading 6 semitones. Other disjoint tertian splits of this union: 1. Open-string count is highest at T1 (3 open). The audition stays on the named roots.

Nearest existing collection: hex_lydian_triad_pair (scalar, Forte 6-33), shared pitch classes 4. Tied with hex_whole_tone_odd, sus-b9, minmaj13-sharp11, maj7-sharp11-sharp9, min9, dim7-b13, maj7-sharp11, minmaj9, 13b9. Nearest spelling: C D E F# G A. Comparison material uses its lower C E G and its upper D F# A. Only in this candidate: Db Eb. Only in the nearest collection: D E. Shared: C Gb G A. The difference is this pitch-class mismatch. No audible difference is claimed before human review.
